Refugee Girls Business Training in Nakivale

The team recently did a 6th Business Training for 30 Refugee Girls in Nakivale Settlement. The girls are being empowered with business skills to start their income generating projects to serve their communities in the refugee settlement. They are very active, and committed to the program which is great for their learning and growth. At Kisoboka, we believe giving a hand up and not handouts is the best *way* to empower them to be self sufficient and catalyze their prosperity. We appreciate the MNS foundation for supporting this program.
